Building and testing an Api-server:

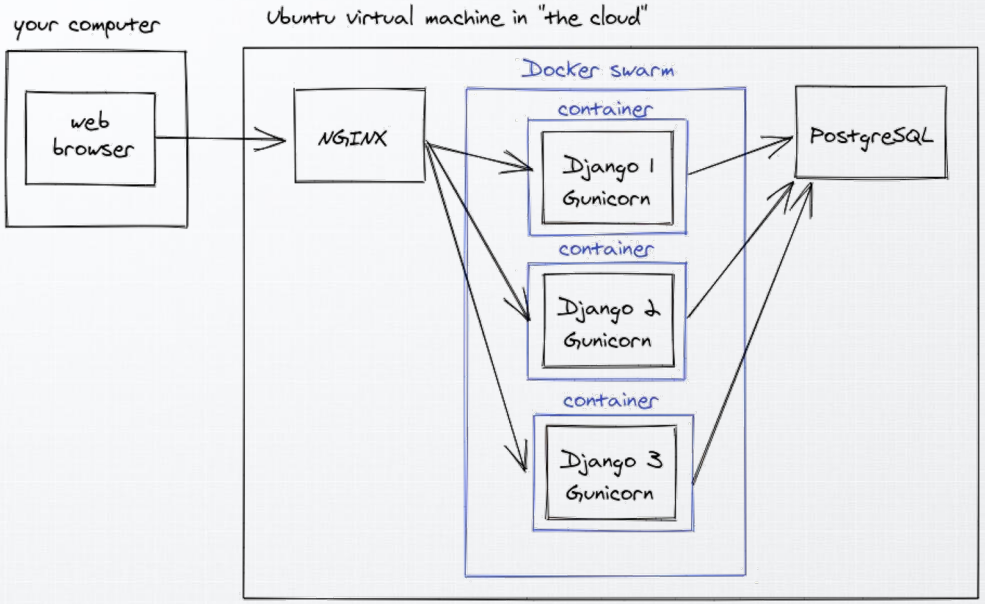
- Conclusions
- Final considerations

OCTION+

Software Stack – Production Server

Web Server & Application Server - Protocols

Nginx WEB Server

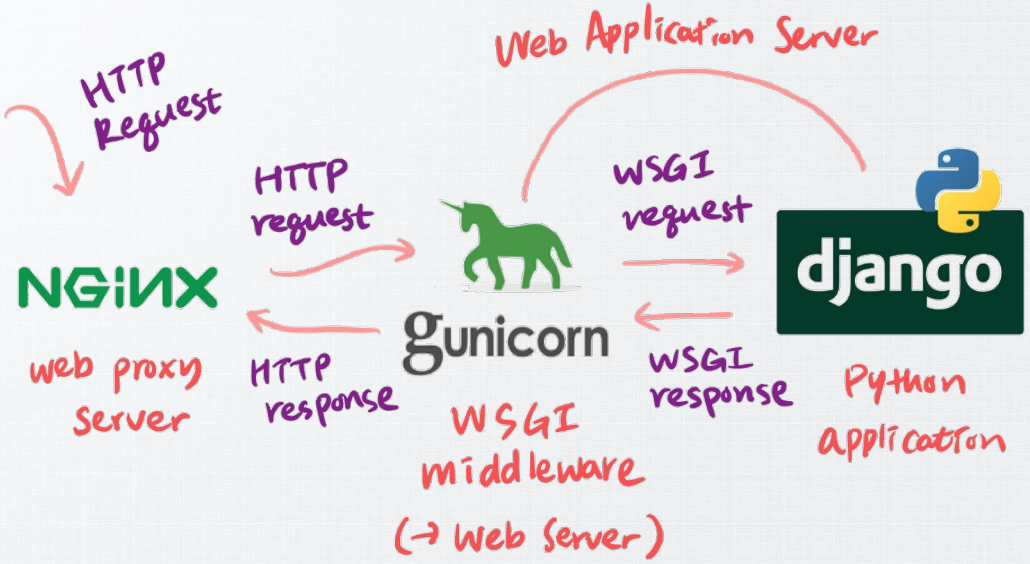


```
server {
  listen 80;
  server_name name.com or ip_address;

  location = /favicon.ico { access_log off; log_not_found off; }
  location /static/ {
    root /home/oction/XXXX;
  }

  location / {
    include proxy_params;
    proxy_pass http://unix:/run/gunicorn.sock;
  }
}
```

Gunicorn WSGI HTTP Server



Thanks!
